

Preva E SEL

Dietetic complementary feed for poultry
Rich in antioxidants

POULTRY
PERF

PROPERTIES

Nutritional purpose: support of dietary imbalances during feed transition.

Preva E Sel brings vitamin E and selenium.

- Vitamin E is a potent free radical scavenger, which helps to protect the organism against oxidative stress.
- Synergistic action: selenium helps to recycle the oxidated vitamin E.

WHEN DO I NEED PREVA E SEL?

- During or after vaccinations.
- After any stress (disease, transfer, transition...).

DIRECTION FOR USE

To be administered in the drinking water at a rate of 100 mL up to 1 L for 1000 L water for 3 days. Before use or extension of use, it is recommended asking for the opinion of a specialist.
