

# Preva Hep

Complementary feed for poultry  
Liver support

**POULTRY**  
**PERF**

## PROPERTIES

Blend of hepatoprotective agents to support highly productive birds.

Liver is a key organ for many metabolic pathways and storage. Intense feeding and production leads to overloading of liver. Preva Hep brings sorbitol, betaine, choline and methionine that help to revive liver functions.

Preva Hep as a source of magnesium and sodium also supports kidney functions by stimulating excretion.

## WHEN DO I NEED PREVA HEP?

To be used during:

- During growing period after intense metabolic stage.
- Alongside laying to support shell quality.
- In case of loss of appetite.

## DIRECTION FOR USE

To be administered in the drinking water at a rate of 1L for 1000 L water for 5 days. Before use or extension of use, it is recommended asking for the opinion of a specialist.

## COMPOSITION

Sorbitol, propylene glycol, sodium chloride, magnesium chloride, salts of citric acid.

### ADDITIVES (PER 1L)

Betaine: 20 400 mg, choline chloride: 105 000 mg, Methionine Hydroxyl Analog: 20 000 mg.

## SHELF LIFE

24 months in original packing.

Store at room temperature and out of direct sunlight.  
Shake well before using.

## PACKAGING

- Bottle of 1L.
- Jerrican of 5L.
- Jerrican or bag-in-box of 20L.
