

Preva Ox

Dietetic complementary feed for poultry
Rich in antioxidants

POULTRY
PERF

PROPERTIES

Nutritional purpose: support of dietary imbalances during feed transition.

Preva Ox brings vitamin E, grape polyphenols and Selenium.

- Vitamin E is a potent free radical scavenger, which helps to protect the organism against oxidative stress.
- Synergistic action: selenium helps to recycle the oxidated vitamin E.
- Grape polyphenols save vitamin E and have a stronger antioxidant capacity (x11 Vitamin E).

WHEN DO I NEED PREVA OX?

- During or after vaccinations.
- After any stress: heat stroke, disease, transfer, transition.

DIRECTION FOR USE

To be administered in the drinking water at a rate of 100 mL up to 1 L for 1000 L water for 3 days. Before use or extension of use, it is recommended asking for the opinion of a specialist.

COMPOSITION
